

What is Communism?

A Rothschild Invention

by Charla Shamhart

Most people have little idea what COMMUNISM is.

It is the planned destruction of morality, religion, knowledge and God's order. Instead these noble goals are substituted with the promotion of depravity, focusing on sex, especially perverted sex, various forms of economic, mental and emotional slavery, a denial that God exists and total submission to the State, which spies on all actions and behaviors of citizens through all media and means possible. It also includes seizure of all wealth and resources by the State.

It promotes destruction of the family, forcing mothers out of homes into the workplace or onto public assistance with children being raised by government-sanctioned childcare providers and receiving government mandated medical procedures with which the parents may disagree. It encourages divorce and women having children (that are not aborted) by multiple partners instead of celebrating a traditional, religious-based family unit.

It includes education about politically correct subjects such as the LGBT agenda, 'sex education' that includes perverted sex, dumbed-down schools, curricula designed to make students feel stupid rather than actually teaching subjects of value designed to engender critical thinking. It includes abortion on demand with the goal of killing as many babies as possible, including those ready to be born.

It celebrates medical procedures that maim and kill while milking taxpayers to pay for these ills created by the pharmaceutical-medical profession and by devitalized, un-natural foods that cause chronic

illnesses that need to be expensively 'managed', but which eventually kill people needlessly. It promotes use of drugs both legal and illegal.

It teaches that God does not exist; that humans can do what they will with no remorse or consequences for any kind of behavior as long as their actions do not challenge State supremacy and hierarchy.

It promotes enslavement of people through usury (compound interest) that can never be paid back, leading to perpetual economic slavery.

Control is exercised through central, top-down, one-size-fits-all planning of people's lives economically, physically, mentally and emotionally.

The Christian religion has been especially targeted, as it is based on enumerated laws of conduct that follow God's law and create order and stability in society, but other religions will also be expunged.

Then, as directed by Karl Marx's Communist Manifesto, Communism mandates the outright killing of all who disagree with this hedonistic, debased philosophy based on man-made law, not God's law as well as those who are no longer 'useful'. Note that Marx was related to the Zionist Rothchild bankers who subsidized the development and implementation of his (and their) ideology of evil with the goal of developing a one world government where all national borders are dissolved and humans are managed as 'resources'.
