

Slave Owners Identified 1860

By 'COOTER', MARCH 17, 2021

In light of all of the talks about slavery recently amid the protests, I wanted to share some information that I found helpful. Die-hard liberals want to try and accuse every white person for being a slave owner or a decent of a slave owner by virtue of simply being white. But is that really the case?

When you look at the 1860 Census data and take the averages you end up with about 1.3% of the population in the United States that actually owned slaves at the height of slavery.

This includes slave owners that were white, native American and black. All three peoples owned slaves.

But here is something more important. Look at these names:

LARGE CORPORATIONS AND SLAVERY.

JP Morgan, Bank of America, Wells Fargo, New York Life, Tiffany & Co, Aetna, Brooks Brothers, Norfolk Southern Railroad, AIG, Wachovia, USA Today, Lehman Brothers, N M Rothschild & Sons Bank in London, Fleetboston, Brown Brothers Harriman, Canadian National Railway Company, Barclays, Brown University, Dartmouth College, Rutgers, Princeton, Harvard and Yale.

Slave Owners Identified 1860

By 'COOTER', MARCH 17, 2021

1860 Census	
Total Population	31,183,582
Total No. of Slaves	3,950,528
No. of Families	5,155,608
Total Free Population	27,233,198
Total No. of Slaveholders	393,975
Slaves as a Percent of the Population	13%

Why mention those companies you may wonder. It's because I want to show you the *correlation between large corporations and slavery*.

Since the census data reflects that approximately 1.3% of the population owned slaves, I would feel safe saying that the majority of slaves were owned by big corporations, given the way that they are enslaving us and marketing social justice now.

Most of the white working-class Americans you walk past every day on the street probably have no direct connection to a single slave owner. On the other hand, the U.S. corporate nepotism machine has a slew of them.

These same institutions that profited from slavery also profit from private prisons.

Scapegoating slavery solely on anyone white was done on purpose, as usual, to keep us from looking at the 1%. The top global corporations who enslave us today.

Slavery was a business model, not just something that people did for fun. And those on top of the economic business chain today solidified their positions due to slavery. They built their successful businesses on the backs of slaves.

Your average blue-collar or 9-5 working white person likely does not have a bloodline connection to a single slave owner while Jacob Rothchild does.

At the end of slavery, these corporations still needed a way to maintain control of their fortunes without being so they made the face of slavery the white man, in general, to steer the spotlight off of them.

This way the poor whites and poor blacks would have friction while the wealthy elite who were the primary benefactors of slavery can play on both sides to keep the attention off of themselves.

Everything ill that happens to society from the Holocaust to slavery was propagated by the same rich banking cartels to include our endless wars.

The white co-worker or supervisor is not the enemy, in fact, he has the same enemy that every American does!

They will always push race issues as people start to wake up to keep the heat off of themselves.

The same corporations that enslave us in debt now were the same ones who enslaved people then.

At best a few suburban white families may have held some in-home servants but it was the wealthy elite who provided, and established the largest plantations.

Ironically roughly 1.3% still control all of today's wealth so those rich people screaming Black Lives Matter while marketing products are wealthy due to slavery and are unapologetic of it.

The white taxpayer doesn't owe anyone any reparations. IF anyone owes reparations it's the large corporations that were built on the backs of slaves.

At the height of American slavery, 78% of slave owners were ethnic jews

40% of the jewish population were slave owners, while only 0.35% of white Americans owned slaves

US Government Consensus, 1860

The Secret Relationship Between Blacks & Jews

Dr. Abraham Peck, of the American Jewish Archives

"The first two centuries of the Black-Jewish encounter in America were high-lighted by a fairly extensive record of Jewish slave-holding. Indeed, during the colonial period, in the small Jewish community of the time, almost every Jewish household of any form, North or South, possessed at least one slave."
